

VHI SOFTWARE AGREEMENT

NOTICE

This DVD and/or software program (the "Program") is designed to provide you with temporary record keeping for your patients. The Program is not intended to be and should not be used as a permanent source of your patient's records. You are strongly advised to backup on a regular and frequent basis with print copies any patient information and data that is temporarily stored in the Program. Visual Health Information ("VHI") will not be responsible for the loss of any patient information and data.

The Program is designed to work in a network environment, but is not designed to take the place of proper network security precautions. You are strongly advised to install firewall software on your network and understand how to use it prior to installing the Program. It is your responsibility to understand and implement proper network security policies, in order to prevent unauthorized access or attacks to your network. Visual Health Information ("VHI") will not be responsible for compromised data or other security issues directly or indirectly related to installation or use of the Program.

The Program is capable of maintaining an audit log of user activity. However, this feature is not designed to take the place of the proper use of operating system audit and security features. VHI makes no claims as to the accuracy or completeness of the information contained in the audit logs.

For installations of the Program which require activation, periodic verification of the activation may occur. This may result in contact with the VHI web server. VHI reserves the right to invalidate the activation for any software purchase that is more than sixty (60) days past due.
